## PRE-REQUISITES

NONE

## DURATION

1 DAY

## QUALIFICATION

A REFRESHER RECORD IS ISSUED

## COST

£150.00 + VAT

## THE COURSE COVERS

This course is ideally designed for the harvesting operators working regularly on commercial production sites and will cover update training a variety of felling and takedown techniques.

It will cover trees sizes up to and in excess of 2 guide bar lengths. (Provided such trees are available on site and the operators have CS32), and cover the requirements expected in standing crops.

The trainees will be given instruction on site preparation, risk assessment, PPE and equipment preparation. It will provide instruction on take down techniques and the use of a variety of aid tools including lift wedges and hydraulic wedge techniques where available and requested.

A Refresher Record will be issued for all attendees with specific recommendations.

There is a maximum of 4 trainees allowed on this course.
